Live webcasts and additional information can be accessed on the events section of the Tarsus website. Replays will be available on the Tarsus website within 48 hours and will be archived for a limited time.

**About Tarsus Pharmaceuticals, Inc.**

Tarsus Pharmaceuticals, Inc. applies proven science and new technology to revolutionize treatment for patients, starting with eye care. Tarsus is advancing its pipeline to address several diseases with high unmet need across a range of therapeutic categories, including eye care, dermatology, and infectious disease prevention. XDEMVY® (lotilaner ophthalmic solution) 0.25% is FDA approved in the United States for the treatment of *Demodex* blepharitis. Tarsus is also developing TP-04 for the potential treatment of ocular rosacea, TP-05 as an oral tablet for the potential prevention of Lyme disease, IRX-101 for potential use as an ocular antiseptic and gildeuretinol for the potential treatment of Stargardt disease.
